

RECENT ADVANCES IN MOIRÉ SYSTEMS: FROM GRAPHENE TO TRANSITION METAL DICHALCOGENIDES

WORKSHOP - SEPTEMBER 8 TO 12, 2025

APPLICATION DEADLINE: MAY 31, 2025

Directors:

B. Andrei Bernevig (Princeton University, USA)
Rafael Fernandes (University of Illinois Urbana-Champaign, USA)
Rodrigo Pereira (International Institute of Physics - UFRN, Brazil)
Oskar Vafek (Florida State University, USA)

Invited speakers:

Nurit Avraham (Weizmann Institute of Science, Israel)
Leni Bascones (Instituto de Ciencia de Materiales de Madrid, Spain)
Erez Berg (Weizmann Institute of Science, Israel)
Andrey Chubukov (University of Minnesota, USA)
Luis Gregorio Dias (University of Sao Paulo, Brazil)
Dmitri Efetov (LMU Munich, Germany)
Paco Guinea (Imdea Nanoscience, Spain)
Jian Kang (Shanghai Tech, China)
Cyprian Lewandowski (Florida State University, USA)
Caio Lewenkopf (Fluminense Federal University, Brazil)
Jia Li (Brown University, USA)
Xiaobo Lu (Peking University, China)
Paula Mellado (Universidad Adolfo Ibanez, Chile)
Hector Ochoa (Columbia University, USA)
Raquel Queiroz (Columbia University, USA)
Tatiana Rappoport (Federal University of Rio de Janeiro, Brazil)
Nicolas Regnault (Ecole Normale Supérieure Paris, France)
Carlos Sa de Melo (Georgia Tech, USA)
Ady Stern (Weizmann Institute of Science, Israel)
Paivi Torma (Aalto University, Finland)
Di Xiao (University of Washington, USA)
Jiabin Yu (University of Florida, USA)
